Made of fabric, it comes with adjustable fastening straps, suitable for most adult head sizes, providing basic protection for outdoor activities.

This outdoor mask (hereinafter referred to as "mask") is specially designed for outdoor scenarios.It can efectively block sand,dust, catkins and some particles, with both breathable comfortivebloocik
mountaineering and daily commuting.The product is made of skin-friendly and breathable fabric, equipped with adjustable straps,suitable for most adult head shapes, providing basic protection for outdoor travel.

一、 Product Instructions and Usage Restrictions (IProduct Usage Instructions and Limitations)

1.1 How to Use

1. Please check the appearance of the mask before wearing it to ensure there is no damage, stains, or strange odors, and that the fabric and fastening straps are not loose.Before wearing,

check the appearance of the mask to ensure there is no damage, stain or peculiar smell, and the fabric and straps are not loose.

2. Cover the nose, mouth, and lower jaw area with the mask, ensuring the upper edge of the mask fits the curve of the bridge of the nose, and that there are no gaps in the key protective areas of the face.Cover

the mouth, nose and jaw with the mask, fit the upper edge of the mask to the bridge of the nose curve, and ensure no gaps in the key facial protection areas.

3. Adjust the ear loops on both sides or the head strap behind the head so that the mask fits the face without feeling tight, avoiding the failure of protection caused by too loose a fit or the discomfort caused by too tight a fit

The face affects breathing and comfort.Adjust the ear hooks on both sides or the strap behind the head to make the mask fit the face without tightness, avoiding protection failure due to looseness or affecting breathing and comfort due to excessive tightness pressing the face.

4.After putting it on, gently press the nose bridge of the mask (if it has a nose bridge strip) to further conform to the facial contours and enhance the protective effect.After

wearing, gently press the nose bridge part of the mask (if equipped with a nose wire) to further fit the facial contour and improve the protective effect.

5. When removing, hold the ear loops or the edge of the fixing strap and gently take it off, avoiding touching the area inside the mask that contacts the face, and place it in a clean, dry place

Office.When removing,hold the edge of the ear hooks or straps and take it off gently.Avoid touching the inner side of the mask that contacts the face, and place it in a clean and dry place.
